

Curaflex® 5.5002

NON-PRESSING WATER

- Flange plate with sleeve for penetrations
- Use **in front of the wall/on the ceiling**
- For use with **tanking membranes or thick coating (black tank)**
- With **fixed and loose flange** and additional bonding/
mounting flange
- Ideal for **insulated structures**

25 Jahre Garantie

PRODUCT ADVANTAGES

- Specially manufactured steel pipe sleeve with integrated fixed and loose flange (loose flange split) and additional bonding/mounting flange
- Design allows for easy incorporation of insulation
- Can be manufactured individually for planned insulation thickness
- Integration of an additional sealing level possible
- Optimally designed inner wall for holding the Curaflex® gasket insert

TECHNICAL DETAILS

- With fixed and loose flanges and bonding flange in accordance with DIN 18195/DIN 18533
- Gas and water-tight
- Depending on the tanking membrane, installed with Curaflex® packings (1775) arranged on both sides where there is thin and hard film, or accessories where there is a thick coating (1776): Sanding of the contact surfaces of the fixed and loose flange

MATERIAL

- GGV triple corrosion protection coating; optionally made of stainless steel 1.4301 (V2A) or 1.4571/1.4404 (V4A)
- Contact surfaces sanded where a thick coating is yet to be applied
- Delivery includes fixing material for solid walls

ACCESSORIES (OPTIONAL)*

- Curaflex® packings (1775) for thin, hard films
- Accessories for thick coating
- Punch for thick coating

* see corresponding section
