

# Quadro-Sicura® Basic R2, R3, R5

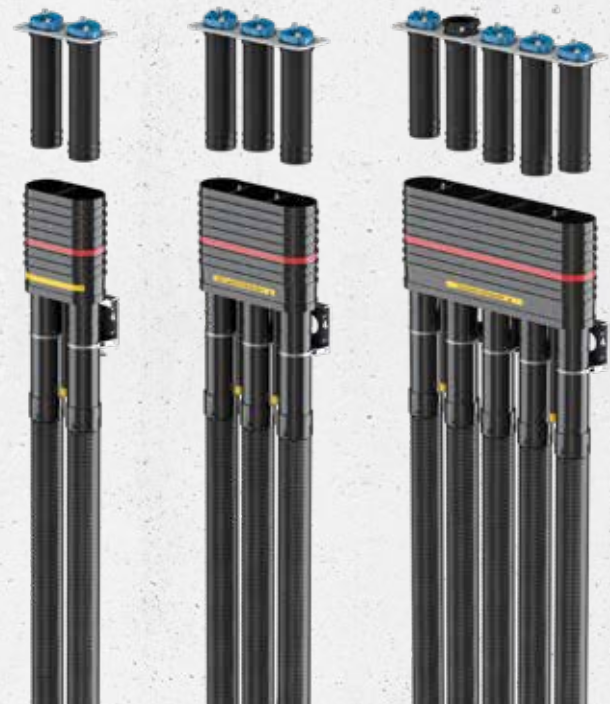

for buildings without basements

 PRESSING WATER

- Multi-compartment house lead-in as a **series version**
- Use in **unfinished structures made of waterproof concrete**
- For 2–5 building services: gas, water, electricity and telecommunications, or for **multiple assignment** of 2–5 different individual building services

**25**  
years  
guarantee

## PRODUCT ADVANTAGES

- Compact and space-saving thanks to series arrangement
- Leak-tight against gas and pressing water
- Infinitely variable modular gaskets for water and energy
- Easy installation
- Easy assignment of building service sealing through symbol identification
- Bend-resistant and anti-tear jacket pipes for compliance with bending radii
- Installation without torque spanner thanks to turn-stop system
- Subsequent replacement of pipes possible (relining)
- Can be used for all standard flexible gas house lead-in combinations

## TECHNICAL DETAILS

- DVGW and SVGW-approved
- 100% separation of building services; each section is sealed separately
- Variable arrangement of individual compartments possible
- Connection option for rigid or flexible jacket pipes DN 90; larger or smaller diameters are possible via expansion sleeves or reductions
- Suitable for immediate installation in the floor slab or for later retrofitting in a cut-out in the floor slab
- Variable height adjustment to match the finished floor by up to 130 mm
- For supply lines with  $\varnothing \geq 50$  mm we recommend using the Quadro-Sicura® ADS
- Cast-in part consisting of plastic casing in series arrangement and 2–5 connecting sleeves including 3 m bend-resistant jacket pipe, nominal/outer diameter 90 (inner diameter 78) and height-adjustable rod.

- Alternatively also available with 6 m, 10 m or 15 m bend-resistant pipe
- All building services are given dummy plugs that are leak-tight against gas and pressing water

Supply lines	Pipe/cable Ø
Gas	Gas house lead-ins RMA, Schuck, VAF Voigt, Burger: DN 25 (other dimensions available upon request)
Water	Outer diameter 32 mm, 40 mm, 50 mm;
Electricity	Outer diameter of 26–36 mm; optional outer diameter 36–47 mm
Telecommunications	Outer diameter: 2 × 5–7 mm, 3 × 7–13 mm, 1 × 14–18 mm and 1 × 19–22 mm

Further dimensions and versions available upon request.
